Visit Sealite at AAPA Latino 2021 Cartagena – Exhibiting Together with Sabik Marine

Tilton, New Hampshire, USA – October 19, 2021 – Sealite is exhibiting together with Sabik Marine at this year's Latin American Congress of Ports in Cartagena, Colombia. The Latin American Delegation of the American Association of Port Authorities (AAPA) organizes this exciting three-day event, which brings over 400 port executives. It is held at the Hilton Hotel Cartagena from November 29 to December 1.

You can find Sealite at Booth #5 with their display of navigation aids ideal for port and harbor applications:

- SL-RMU Remote Monitoring Unit
- SL-155 6-13NM Stand Alone Marine Lantern
- SL-300 Long Range Marine Lantern
- SL-510-SA 5-9NM Stand Alone Marine Lantern
- SL-C510 5-9NM Solar Marine Lantern, and
- the new SL-75-SAT 3-5NM Solar Marine Lantern with Satcom

The SL-75 Solar Marine Lantern relaunched in late September 2021 to offer the popular solar light with Satcom. Each lantern comes with Bluetooth® technology to easily program your port and harbor lighting within 50 meters via the SealitePro® App. With the Satcom enabled SL-75 lantern, real-time monitoring, control, and reporting is accessible via the Star2M portal. Those attending AAPA Latino 2021 will receive a sneak peek of the new product!

Jason Larrere, Regional Sales Manager for Sealite Americas, states, "We are thrilled about the possibilities now available with the added capabilities and technologies of Sabik. Together, with the connectivity features added to Sealite's product portfolio, we look forward to offering our customers all-inclusive solutions as we incorporate products with our Star2M platform to provide real-time asset management capabilities."
